The objects of the Midwest Multicultural Association are: a) Respectfully acknowledge the Yamatji People of the Midwest as traditional owners of this region; b) Promote cultural and linguistic diversity (CaLD) within the community; c) Promote social and recreational activities for Association members within the wider community; d) Provide assistance in developing social support networks for newly arrived and local families within the Midwest community.

The MWMA is very unique in that the committee members are all from different cultural backgrounds with different belief systems and yet they come together to effectively deliver two free, accessible community events for the City of Greater Geraldton annually – Festival of Lights and Harmony Festival.

Invitation to Festival of Lights

Saturday 10 November 2018

The Festival of Lights is a major event facilitated by the Midwest Multicultural Association (WA) Inc (MWMA) to celebrate the cultural diversity of our community.

The Festival of Lights 2018 is to be held on Saturday 10 November at the Geraldton Multipurpose Centre, Stow Gardens, Geraldton.

This is to be an accessible free cultural event to showcase multicultural music and entertainment in the Midwest accompanied by culinary and artistic experiences from a variety of local stall holders.

The celebrations are to be held between 5pm and 9pm, culminating in fireworks.

Estimated patronage for the event is 3,000 plus

Local businesses are invited to be a part of this exciting celebration.
